Comments From Teachers and Administrators Regarding Global Challenge

"Lee, I think the project is amazing! I like the way it is set up so that the students are the ones writing and answering the questions. Students will learn more if they are the ones doing the research and fact checking. I especially like the "game" like atmosphere, with students making alliances and treaties. I don't think you can simulate anything more real world. I am going to "tweak" it a little and try it "ancient civilization style" with my 6th graders. Thanks for allowing me a chance to read through it and experiment with it."

Kim Lander, Kansas City

“Mr. Chazen has organized and implemented a world history game that he created to help stimulate student interest, learning, and participation in the study of world history and world government. This active learning game greatly increased student understanding, interest, retention, and participation in their study of world history.”

Mr. Ross Gregory, Former Principal of Galena High School

“This was a very well planned and executed project. Mr. Chazen is to be commended for its success. He is an excellent teacher.”

Mr. Russell McOmer, Former Vice Principal of Galena High School

Comments from Students Regarding Global Challenge

"I enjoyed this game immensely. I learned more than I ever would have from a textbook. I guess actions do speak louder than words."

"I have learned more about the history of the world this year than I have in my whole sixteen years of life."

"Regardless of what happens in the game of Global Challenge, (the event) can, will, or has happened in the real world."

"Global Challenge is a great simulation game. Every aspect relates almost perfectly to history."

"I think that Global Challenge is fantastic. It gave us a chance to learn while having fun. It was so much better than sitting in class all day and not learning anything because we were bored"

"Global Challenge taught me a ton. I know for a fact that if we would have sat in our chairs and done book work all year I would have failed."

Students

“I can say, without a doubt, that if not for my experiences in Mr. Chazen’s classroom and in the special projects he led, I would not have succeeded in high school. He inspired me; he gave me a new lease on learning. I went from being an underachiever to a strong student with his help. I am a recent graduate from the University of Nevada at Reno with an Honors degree in Criminal Justice. Without the guidance and mentoring provided to me by Lee Chazen, I would not have chosen my present path.

I am pleased to be able to offer these opinions as a recommendation for Mr. Chazen. Thank you for your consideration.”

Elizabeth Manning, U.S. Government Student

“Lee Chazen has changed my view about the humanity of teachers and I can say beyond a shadow of a doubt that Mr. Chazen is the best teacher I have ever had.”

Joe Jacklin, World History student

“Mr. Chazen is very good at preparing us for our many successful tournaments. He spends hours after school helping create the environment whereby we can create cases that have proven themselves time and time again. he is consistently an advocate of all our efforts to make the debate experience a beneficial and rewarding one. He is the reason we are where we are. We are a national qualifying team [...] Galena High School should be proud of its team, and the coach [who] leads it.”

James Robison, Speech and Debate Team member

“Mr. Chazen - I just wanted you to know how much the team always appreciated you. I wanted to tell you that I appreciated your dedication, your expense, your time and your efforts for our benefit. Also, thank you for your camaraderie and friendship. It means a lot to me, and to the rest of the founding forensics team. Please stay in teaching - you are an asset to the community, and a credit to your profession. (Maybe someday I will join you in your field.) Thanks for the encouragement, knowledge, understanding and support. You are appreciated!”

Any Jarvie, member of the Speech and Debate team
